

PRESS RELEASE 20th May 2022

CONNECT FIBRE'S HYPERFAST BROADBAND INVESTMENT OPEN FOR ORDERS IN CAMBRIDGESHIRE TOWN OF SUTTON-IN-THE-ISLE

- **Sutton-in-the-Isle network is nearing completion with the first customers to be connected in June 2022**
- **Construction is underway in several other towns across the East of England**
- **Foresight Group funded team accelerating plans to reach an initial 100,000 homes and businesses**

Connect Fibre, a local, community minded, full fibre network provider announces today that it is nearing completion of a hyperfast broadband network in the Cambridgeshire village of **Sutton-in-the-Isle**.

The first customers will be connected in **June 2022**, choosing from a range of full fibre broadband packages up to 1,000 Mbps, with prices from as low as £22.50 per month. All packages are powered by the latest Wi-Fi 6 routers delivering more speed, range, and capacity. A whole home Wi-Fi mesh service is also available which includes the UK's best Wi-Fi guarantee.

Construction is also underway in several other towns as Connect Fibre continues to accelerate plans to deploy a full fibre network across the East of England to bring fast digital connectivity to over 100,000 homes and businesses across the region.

Commenting on the deployment milestone, **Stefan Stanislawski, Connect Fibre Co-founder and CEO**, said: “Connect Fibre’s unmatched combination of hyperfast full fibre, unbeatable service levels, and fair prices will allow local communities to unlock a myriad of new opportunities. We are on a mission to bring the best broadband to those communities that need it most. I am proud that Sutton-in-the-Isle will be the first of many towns to benefit from our advanced network.”

Mark Inskip, Sutton Councillor and local resident, also noted: “The pandemic has underlined just how much we rely on the internet, and I welcome the plans unveiled by Connect Fibre to give more choice for internet connectivity with the availability of hyperfast broadband for Sutton residents. Full fibre brings enormous bandwidth benefits, addressing the data demands not just of today, but also of the future. ”

Customers who want to obtain faster, fairer, full broadband services should visit and register their interest at www.connectfibre.co.uk.
